

Logo Design Philosophy

—● Taipei 101 Landmark

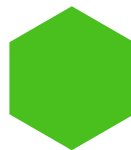

The building was architecturally created as a symbol of the evolution of technology and Asian tradition (*Wikipedia*)

—● Chinese Cloud Motif

Clouds, sometimes referred to as "auspicious clouds" (xiangyun 祥云), represent the heavens and also "good luck" because the Chinese word for cloud (yun 云) is pronounced the same as yun (运) meaning "luck" or "fortune".

The cloud is a commonly seen design and when repeated in a pattern symbolizes never-ending fortune. (<http://primaltrek.com/impliedmeaning.html>)

—● Geckoo and Hexagon Shape

Part of openSUSE brand identity
